Welcome

The Traditional Window Company

The Traditional Window Company was formed in 2004, in response to an ever-growing demand from homeowners for a product that was not only affordable and practical but attractive and durable too. Something that would enhance not only the appearance, the comfort and the security of their home, but also its overall style and value.

In forming the company we brought together more than eighty years combined experience of all aspects of the window and door industry, from design and manufacture through to installation, from our directors to our craftsmen, fitting teams and the administration staff.

This enables us to provide a comprehensive and outstanding after sales service to our customers.

We are setting a standard in the manufacture and supply of timber windows and doors. Every product is made precisely to the individual requirements and wishes of our customers, where a traditional appearance is backed by the latest manufacturing technology.

Using modern fabrication techniques and the best materials conforming strictly to modern

building and safety regulations. We take pride in ensuring that what we deliver, is indeed traditionally crafted and stylishly applied.

The Traditional Window Company specialises in both the manufacture and installation of bespoke replacement timber sliding sash windows, casement windows and doors.

The timber we use is sourced from certified sustainable forests and is specially selected for its quality and tight grain that's perfectly suitable for joinery purposes, then tailored to your exact needs.

Each product is fully spray finished, with the colour of your choice, with a microporous sealant.

This process enables the timber to breathe and gives long lasting weather protection unlike more conventional paint finishes and varnishes.

We then support our expertise and commitment to you with our 10 year guarantee.

Traditionally Crafted - Stylishly Applied

*Where Heritage
Meets Style*

Timber Sliding Sash Windows

The Heritage range of timber sash windows combines classic elegance with modern technology. Each unit is hand finished to your exact requirements using only the finest materials and expert craftsmanship.

The Heritage range is available in your choice of redwood timber or hardwood and comes with 24mm sealed units and key locking handles as standard offering both improved security and energy efficiency.

With an excellent choice of accessories, fittings and decorative period features combined with our fully customised design service, The Traditional Window Company will ensure that your new windows not only suit, but also improve the appearance of your home.

Sovereign

*Elegant, yet
Sophisticated*

Internally Glazed Stormproof Casement Windows & Doors

Our hardwood casement windows and doors are made from the finest timber and guaranteed to improve the appearance of your home.

Available in a choice of colours with a variety of fixtures and fittings our complete range of casement windows and doors are designed with equal glass sight lines as standard, this guarantees a consistent balanced appearance.

By incorporating key locking, multi-point shoot bolt security systems with the facility of a secure partial open position accompanied by egress hinges with a built in easy clean facility, you have the perfect solution for a high security, low maintenance hardwood window replacement.

Within our extensive range of products, we also offer attractive features such as authentic swept heads and french style casement windows, without the vertical fixed post.

Alternately to retain or add a little distinction, there is a full range of decorative lead designs available, including coloured glass, hand crafted using specially formulated coloured film encapsulated within the sealed unit, the lead strips are spot soldered to both sides.

Sovereign Benefits

- Colour co-ordinated
- Multi-point shoot bolt locking systems
- Key locking handles
- 28mm sealed units
- Fully draught excluded
- Noise reduction
- Fully factory finished
- Low maintenance
- Restrictor stays
- Patterned glass
- Insurance approved security

The Sovereign door range also has toughened safety glass as standard and is available with all of the above benefits.

Classical
Where Time Stands Still

Internally Glazed Residential, French, Stable & Bi-fold Doors

The Traditional Window Company offers a superb selection of doors in a variety of styles.

Residential

From classic to modern, our residential doors are made to measure in high quality hardwood. You can choose from our range of standard designs, or alternatively we can produce almost any size or style of door to match your requirements.

Bi-fold

Modern, elegant and stylish, our range of bi-folding doors come in hardwood or aluminium in the colour of your choice.

French

Enhance your property with our beautiful range of French doors, made to measure in high quality hardwood in a variety of styles. Add glazing bars to achieve the classic French door design.

Stable

You can have the best of both worlds, each of our stable doors operates as a normal door or can be used as a stable door with the top panel opening whilst the bottom panel remains fixed.

Classical Benefits:

- Solid hardwood
- High security multi-point locking
- Fully draught excluded
- Noise reduction
- 28mm sealed units
- Variety of colours and styles
- High quality furniture
- Authentic glazing bars
- Toughened safety glass
